Acknowledgement of Receipt of Information**

State Law requires us to obtain your consent for dental treatment. Please ask us about anything you do not understand. We are ready to answer any of your questions or explain anything you need. Any alternatives to the recommended treatment, including no treatment, have been explained to me. In general terms the contemplated dental treatment is:

Hygiene: prophylaxis (cleaning), exams, x-rays, full mouth debridement, scaling and root planning, Operative: crown, onlay, inlay, bridge preps; occlusal adjustments, splint adjustments, fillings.

I understand dentistry is not an exact science and complications may occur despite our best efforts. There are risks associated with any dental treatment. This includes the administration of any local or general anesthetic agent, analgesic agent(s) to produce conscious sedation, and/or pre-medication prior to dental care being rendered. Some of these risks/complications are, but are not limited to, the following:

- Sensitivity to temperature (hot/cold)
- Damage to or possible loss of fillings or other dental work
- Change in bite
- Damage, fracture or possible loss of the tooth/teeth being treated as well as adjacent teeth and bone
- Loss of tooth/teeth or loss of bone
- Incomplete removal of tooth
- Failure of wound to heal
- Dry socket
- Injuries to adjacent teeth and/or soft tissue
- Paresthesia or numbness of: tongue, and/or mouth, and/or face
- Injury to adjacent structures
- Fracture of mandible (upper jaw) or maxilla (lower jaw)
- Instrument breakage
- Opening between mouth and sinus or mouth and nose
- Allergic reaction to drugs
- Sloughing (unanticipated loss of hard and/or soft tissue)
- Bacterial Endocarditis
- Swallowing and/or aspiration of prosthesis and other objects
- Failure or treatment to accomplish its purpose
- Breakage or root(s) and retained root fragments
- Truismis (jaw pain or difficulty opening mouth)
- TMJ dysfunction or worsening of TMJ condition
- Additional surgery, hospitalization and/or further treatment may be required in the event of any complication(s)
- Injury from airborne particles or instruments
- Infection
- Burns from chemical agents used in treatment or dental treatments
- Bleeding
- Loss of or damage to the ability to taste, speak, hear and/or see
- Tooth or fragment in maxillary sinus
- Death

State Law also requires that I specifically advise you, although rarely occurring, the dental treatment or anesthetic may result in: Paraplegia (paralysis of both legs); Quadriplegia (paralysis of both arms and legs); Loss or loss of function of an organ(s) or limb(s); Brain Damage; or Death.

Acknowledgment

I acknowledge that I have read, or that it has been read to me, and I understand the information contained on this consent form. I was given an adequate opportunity to ask any questions and all questions that were asked, were answered to my satisfaction.
